

ND Hospitals mark Physiotherapy Day with a social Project, Passo Fundo, Brazil

To celebrate Physiotherapy Day, October 13, in the ND Hospitals in the Holy Cross Province, Passo Fundo, Sr. Margarete Cerutti coordinated a concrete project with the professionals in this area.

For its 9th edition, the project received 250 kits of food, hygiene products and school materials. The kits for the campaign with personalized T-shirts were collected during all of September.

The donations were made to “Tia Nastácia and Tia Sybilla’s” school in Não-Me-Toque on October 13th. Joy and gratitude could be seen in the faces of the children and teachers of the public school. They thanked by offering cards and presentations. In Espumoso it was the same feeling. The Public School “Criança Esperança” received the kits with great joy on October 14th.

This year, the solidarity action had the support of various regional companies. For 2016, the 10th edition of the project, a special program is being planned to celebrate the occasion.
